

Regarding: **Rocky Flats Signage**

To Rocky Flats Stewardship Council and Others To Whom It May Concern:

I ask that this note be read at your meeting if at all possible.

I wish that I could be at this meeting to let you know how concerned I am over the prospect of bad signage at Rocky Flats. Having spent 15 years of my life trying to have Rocky Flats cleaned up to a safety standard that would protect the citizens living near this site, and for families that may visit the site, and failing, I now realize that I have failed in this endeavor. I am concerned that the dangers that still exist at this site be properly signed, so that those who want to visit the site do so with the knowledge of what still remains there.

I am not sure that determining the wording of the signs was ever supposed to be the job of this Council. However, I know how important it is to individuals to keep their jobs going and others to pad their résumés.

In the best interest of the public health and safety of the citizens, the wording/warning on the signs should come from those who know what really happened here, such as Rep.McKinley with the cooperation of the State Health Department.

Enough people have paid the price, with their bad health and deaths, for this sites existence and for the sake of the Almighty Dollar. Do not let any more people be negatively affected.

Thank you,

Samantha "Sam" Dixon

Former 16 year Council Person for the Westminster & Member of RFLII &RFCLOG

Please add this to the Minutes of this meeting held February 2, 2010 . Thank you
